Many organisations support this event each year:

*“Airbus has supported the Rally event for the past two years and so we are pleased to see the evolution of the event to become a Big Bang (STEM) event. The event has proven to be a perfect platform to engage with our young future engineers, which is why we will continue to support the event”*

**Gavin Jones, Head of Early Careers Programmes, Airbus**

*“We see Big Bang as an opportunity to inspire students to aspire to be engineers. It is an excellent opportunity for our engineers to interact in a fun way with the students, and showcase the range of careers and opportunities available within manufacturing”*

**Sarah Overson, Senior Manager General Affairs, Toyota Motor Manufacturing (UK)**

Yours sincerely
