

#WinItWednesday
06/05/2020

Enter for a chance to win an EESW goody bag and an Amazon voucher!

Choose one or both the Fun Challenge and  Stretch Challenge and get creative with your STEM skills! Good luck!

Fun Challenge: Non-Newtonian Fluids

If you mix cornflour, custard powder, or baby powder with water, a fascinating substance forms - a Non-Newtonian Fluid. It is liquid at rest but when you apply pressure, it turns solid!

Your challenge is to make your own Non-Newtonian Fluid and find the coolest or most creative way to demonstrate it changing states from liquid to solid and back again! Be careful as it will be messy!

Stretch Challenge : Coding the Planets

Scratch is a free programming language and online community where you can create your own interactive stories, games, and animations.

Using the Scratch coding tool in your internet browser, create a moving model of our solar system. There are many tutorials and YouTube guides available to help you. Can you add a unique element like your name or school?

Submit your competition entry (either pictures, videos or links to Scratch) to i2e@eesw.org.uk or to our Twitter or Facebook account by 3pm Tuesday, 12th May. Winners announced 10am Wednesday 13th May. Good luck!
